

JAMES JOYCE

I am a multifaceted professional with extensive experience in project management, event production, graphic design, and technical roles. With a strong foundation in managing high-pressure environments, I have overseen complex events, developed critical digital assets, and led teams to success.

My expertise spans from creative design and marketing to data science, where I have excelled in Python programming and data visualization. I am adept at blending technical skills with creative problem-solving, demonstrated through my work across a multitude of industries and solo projects. My diverse background showcases my ability to adapt, innovate, and lead in any setting.
